THE GREAT KENTUCKY REMEDY. DR. JOHN BULL'S SARSAPARILLA! Will Wonders never Cease?

If the following cures, performed alone by the use of BULL'S SARSAPARILLA, are not wonders, then we asknowledge that we do not know the meaning of the word. Read, and be convinced that facts are stranger than fiction:—

LINE P. O., Fulton Co., Ky., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The two dozen of your Sarsaparilla, ordered in September, came to hand, and, in acknowledging the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the instances that have come under my observation, during the last two years, of the great curative properties of your Sarsaparilla:

Mrs. Jeannette Martin, a highly respectable lady of my neighborisood, aged sixty-five years, had been long afflicted with a cancerous ulcer, which finally reduced her to so helpless a condition, that she could not leave her bed. She tried the best medical advice in our county, without relief, and had given up all hopes of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sarsaparilla. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly good effect. She continued to use it until, after the use of five or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost entirely recovered her health, and from her I received the account of her disease, and in about the same words I give it to yoo. This is but one of a number of cures under my observation—of very remarkable ones—perfermed by the use of your Sarsaparilla, in my neighborhood. The demand for it has steadily increased since its introduction here. Very respectfully, your obedient servant.

WM. R. DICKINSON, P. M.

BOTILE COUNTY, Ky., Oct. 6, 1861.

Dr. John Bull: Dear Sir—I have seen the most marvellous cure of one of my patients, by your valuable medicine—an old lady, who had been afflicted from her childhood with scrofula, and various diseases of the brain. She was sixty years old. It had run into something like leprosy, and she was the most frightful creature my eyes ever beheld. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our power to relieve her; but, on going to my office, I accidentally picked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected, I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her same more. She is now taking the sixth bottle, and I consider her satirely cured. I take great pleasure in recommending your Sarsaparilla to the affilicted public.

Yours respectfully,

JOHN M. ROSS, M. D. I, Thomas A. Ringo, of Graves Co., Ky., for the benefit of mankind generally, do hereby certify, that on or about the 16th day of October, 1847, I was attacked with a very severe pain in the lower part of the abdomen, which lasted but a few minutes, and moved into the left hip, and continued exceedingly painful for about five days, during which time I had a very light fever. At the end of that time the fever ceased, and the pain abated for a day or two, after which it again returned, and was much worse than before. During all this time I was under medical treatment. From a short time after I was taken, I was unable to walk or sit up; the hip in which the pain was so bad commenced rising, until some time in January, when it ment. From a short time after I was taken, I was unable to walk or sit up; the hip in which the pain was so had commenced rising, until some time in January, when it burst, and a number of pieces of hone came out—as many as twenty, at least. Some of the pieces were three-fourthe of an inch long. Some time after this, a hard knot appeared on my right hip, also one on my right wrist, and one on my leg, below my knee. I continued to get weak and worse, and pain made its appearance in my right shoulder, and would move in my breast and stomach. At this time all persons gave me up to die. A physician then told me that, as a last remedy, I had better use MR. BULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist commenced getting soft. I opened it, and a day or two after, a piece of bone came out. My wrist soon got well, and I continued to gain strength. After I used the third bottle, I could get no more for some four weeks, after which time I succeeded in getting three more bottles. After using the three last bottles, the knot en my hip became soft; it was opened, and some corruption ran out, together with a small piece of bone came out. I continued the use of the Earsaparilla until I used twelve bottles, and am now attirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the nummer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my uncle. Thus Neal, where I now live, and if any persons deubt this statement, I will be happy to converse with them, if they will call on me. Signed,

Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with disease, that refuse to give Bull's Sarsaparilla a trial. It is indeed hard to believe, but nevertheless, it is too true. What kind of testimany would it take to convince the few remaining disbelievers, that Bull's medicine will do more even than it promises? The doctor could preduce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is ussless to produce any more, and, indeed, it would cost a fortune to publish the many certificates that have been showered on Dr. Bull. The largest mammoth sheet in America would not contain even the names of those sured, let alone full statements of their cases.

GREAT CURE FOR DYSPEPSIA! ANOTHER SCIENTIFIC WONDER! DR. J. S. HOUGHTON'S

The true Digestive Fluid, or Gastric Juice. The true Digestive Fluid, or Gastrie Juice.

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jamedice, Liver Complaint, Constipation, and Debility, Curing after nature's own method, by nature's own agent, the Gastrie Juice.

Half a tenspoonful of Pepsia, infassed in water, will digest er dissolve, Five Pounds of Roast Beef in about two hours, out of the stormach.

Pepsin is the chief element, or great digesting principle of the Gastrie Juice, the solvent of the Food, the purifying, preserving, and sumulating agent of the stomach and it restines. It is extracted from the digestive stomach of the Ox, thus forming an Artificial Digestive Fluit, precisely like the natural Gastrie Juice in its Chemical powers. Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for It. By the aid of this preparation, the pains and evils of indigenion and dyspepsin are removed, just as they would be by a healthy stomach. It is doing wonders for Devspeptics, curing cases of Debility, Emmeistion, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE.

Baron Lichig in his celebrated work on Animal Chemistry says: "An Artificial Digestive Fluid, analogous to the Gastrie Joice, may be readily prepared from the uncous membrane of the stomach of the Chif, in which various articles of food, as ment and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and a l-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything clise to fail, had recourse to the Gastrie Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissoiving various articles of food, and of effecting a kind of artificial digestion of them in nowise different from the natural digestive profigestion of them in nowise different from the natural digestive pro-

Dr. Simon's great work, the "Chemistry of Man." (Lee & Blanchard, Piniadelphia, 1846, pp 321-2) says: "The discovery of PEP.
SIN forms a new era in the chemical history of Digastion. From recent experiments, we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Persta, and state many interesting details respecting

The fact that an Artificial Dicestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Ind gestion and Dyspepsia—so naturally does such a use suggest itself to the mind. AS A DYSI EPSIA CURER.

Dr. Houghton's Pepsin has produced the most marvellous effects, in euring cases of Debility, Emaciation Nervous Decline, and Dyspepthe Consumption. It is impossible to give the details of cases in the limits of this advertisement; but anthemicated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent

It is a great Nervous Antidote, and particularly useful for tendency to Billious Disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of aident spirits. It almost reconciles health with intemperance.

OLD STOMACH COMPLAINTS There is no form of Old Stomach Complaints which it does not seem to reach and move at once. No matter how bud they may be, it gives instant relief? A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make e good elects permanent. Purity of blood, and vigor of bods

follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps. Soreness of the pla of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, Dr. Houghton's Pepoin is sold by nearly all the dealers in fine drugs and popular medicines, throughout the United States. It is prepared in Powder and the Fluid form—and in Prescription visits

prepared in Powder and the Fluid form—and in Prescription visits for the use of Physicians,

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in respectable stouding and regular practice. Price One Dollar per bottle.
